B.Tech Computer Science student with interest in Data Analytics, AI/ML, and data-driven problem solving. Skilled in Python, SQL, and analytical thinking with experience in developing AI-powered applications and extracting meaningful insights from data. Passionate about building impactful solutions and contributing effectively to dynamic teams.

Education

B.Tech in Computer Science and Engineering 2022 – 2026
LBS Institute of Technology for Women, Trivandrum
CGPA: 7.53

Higher Secondary Education (Class XII) 2021-2022
Sacred Heart CMI Public School
Percentage: 88.2%

Secondary School Education (Class X) 2019-2020
Sacred Heart CMI Public School
Percentage: 92.8%

Skills

Programming: Python, SQL, C, HTML

Data Analytics: Data Analysis, Data Visualization, Machine Learning, NLP, Resume Parsing

Tools: Flask, Git, Google Colab, Excel, Figma, Canva

Soft Skills: Analytical Thinking, Problem Solving, Teamwork, Communication, Adaptability

Projects

AI-Powered Career Guidance System

Python, NLP, Flask, SQL

- Designed an AI-powered system to extract skills from resumes and generate personalized career recommendations.
- Implemented data-driven analysis to identify skill gaps and predict suitable career paths.
- Developed an interactive web interface using Flask to enhance usability and user engagement.
- Applied NLP and analytical techniques to solve real-world career guidance challenges.

Deepfake Video Detection System

Python, Deep Learning, ResNeXt, LSTM, Flask

- Developed a deep learning-based system to detect facial deepfake videos using spatial and temporal features.

- Utilized ResNeXt for feature extraction and LSTM for sequence-based classification.
- Processed and analyzed video datasets for model training and evaluation.
- Deployed a Flask web application enabling real-time, user-friendly deepfake detection.

Experience & Activities

- Design Team Member, **FOSS Club** — UI/UX design and technical content creation.
- Onboarding Wing Member, **µLearn LBSITW** — peer learning and community engagement.
- Social Work Intern, **Ganitham Project** (NSS & Insight for Innovation).
- Completed Infosys Springboard Virtual Internship 6.0 — AI Track

Publications

AI-Powered Career Guidance and Resume Intelligence System

Grace Elizabeth Jose, Dhruva T, Isha Nandana C S, Gowripavathy S, Janisha A
International Conference on Smart and Trusted Systems (ICSTS), 2025

- Proposed an integrated AI framework combining NLP-based resume parsing and skill-gap analysis.
- Emphasized responsible, data-driven decision-making for sustainable career planning.

Achievements

- **1st Prize** — AI Story Prompting Contest, ISRO.
- **2nd Prize** — Designathon, Yagna Dhruva.
- Grow with Google Certification Scholar.

Certifications

- Deloitte Data Analytics Virtual Internship
- Infosys Springboard Virtual Internship 6.0
- Infosys Springboard — AI Primer
- Google AI Essentials & Prompting Essentials
- Google Cloud Fundamentals
- NPTEL — Joy of Computing using Python
