Career Objective

Computer Science Engineering graduate with strong foundations in Python, C, SQL, Data Structures, Algorithms, and Software Engineering. Experienced in developing web-based applications and working with databases, version control, and problem-solving techniques. Passionate about software development, eager to learn new technologies, and committed to building scalable and high-quality software solutions in a collaborative environment.

Education

B.Tech in Computer Science and Engineering 2022–2026

LBS Institute of Technology for Women, Trivandrum
CGPA: 7.69

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Computer Networks, Operating Systems, Software Engineering

Higher Secondary Education (Class XII) 2021–2022

Sacred Heart CMI Public School
Percentage: 88.2%

Secondary School Education (Class X) 2019–2020

Sacred Heart CMI Public School
Percentage: 91.6%

Skills

- Programming: Python, Java (Basics), C
- Data Analysis: Data Analysis, Business Analysis, Data Visualization
- Database: SQL, Database Management Systems
- Reporting Tools: Microsoft Excel, Power BI (Basic), Tableau (Basic)
- Tools: Git, GitHub, Canva, Figma
- Operating Systems: Windows, Linux (Basics)
- Web Technologies: HTML, CSS, JavaScript
- Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Attention to Detail

Projects

AI-Powered Career Guidance and Resume Intelligence System (CAREER-GPS)

Python, Flask, SQL, NLP

[GitHub Repository](#)

- Developed an AI-powered web application for resume analysis, skill extraction, and career recommendations using Python, Flask, and SQL.
- Designed and managed relational databases for efficient storage and retrieval of user information.

- Built backend modules and data processing workflows for recommendation generation.
- Applied NLP techniques to extract and analyze information from unstructured resume data.
- Performed data validation, preprocessing, and transformation to improve recommendation accuracy.
- Used Git and GitHub for version control and collaborative development.

Experience

Infosys Springboard AI Virtual Internship

- Worked on Python-based tasks involving data handling and problem-solving.
- Gained exposure to AI concepts and software development practices.
- Strengthened analytical and structured programming skills.

Deloitte Data Analytics Virtual Internship

- Analyzed structured datasets and interpreted trends to support decision-making.
- Worked on data processing and deriving insights from business data.
- Strengthened analytical and problem-solving skills through practical exercises.

Certifications

- Google AI Essentials
- Google Cloud Fundamentals
- Deloitte Data Analytics Virtual Internship
- Infosys Springboard Artificial Intelligence Certifications
